The Rotation Awards

I value depth over one solitary star (it's a rotation after all). My attempt to make this more objective than past years:

- Get position estimates from Basketball-Reference

    - players with most minutes at PG & SG: guard

    - players with most minutes at SG & SF or SF & PF: wing

    - players with most minutes at PC & C: big

    - exceptions: all players greater than 7 foot are bigs and all players less than 6 foot are guards

- Rank teams based on highest positional VORP without positional VORP leader
